

# Huggy Beez Family Workshops

"AS SWEET AS HONEY & AS WARM AS A HUG"

Family workshops are now open for November bookings!

Taking place in Juniors Day Care these events are **OPEN TO THE PUBLIC**.

Workshops include: Arts, Crafts, Music, Stories and Science.

The perfect opportunity for quality time together.

We also have special sessions coming up for parents only. ❤️

After each fun filled workshop session you and your child can enjoy a little treat for tea!

# WHO ARE WE?! WHAT DO WE DO?!

Our Huggy Beez facilitators focus on the bonding between parent and child. From arts and crafts to stories and sensory all of the workshops we carry out can be done at home and are readily available items that are found in your home without the added expense.

Mini Professors we are passionate about science and feel that all children have a great thirst for learning from a young age and therefore, should be given every opportunity to develop and learn new skills and wonder at the world around them. We believe that science should be accessible to all. We explain scientific principles in simple terms with fun experiments so children can easily absorb and learn about science from an early age. We encourage our Mini Professors to explore for themselves and interact as much as possible. Every class is different, with a completely new and exciting science topic being taught each week. We currently have 80 topics, something to cater for

all occasions!  
A Pocket of Positivity

At A Pocket of Positivity we are passionate about early intervention in our children and empowering teens and adults with the tools and skills necessary to live our most passionate, fulfilling and healthy life. We offer tailored workshops with a focus on mental health awareness and emotional wellbeing. Our sessions provide resilience tools and relaxation techniques to children, teens and adults in schools or community settings.

This workshop is designed to give children and parents the opportunity to learn and practice a range of relaxation and grounding techniques through fun and play, taking children from high energy to relaxation through 7 steps. As part of the Relax Kids programme the workshop promotes resilience, positive self-esteem and social and emotional development. Helping children feel more calm and confident.

Michelle  
Owens

We deliver interactive music classes to babies, toddlers, pre-schoolers and beyond!... encouraging movement, speech development, communication and relaxation. Our workshops are centred on creativity, self-expression and fun!

Introducing your toddler to the joy of their own unique creativity using a variety of mediums designed to engage your child. The session will be fun, messy and a great memory for parent and child alike
